REPUBLICAN COUNTY CHAIR REMARKS

I am truly amazed that a number of people want to "mess with Texas", in spite of our outstanding Republican successes. Our state stands as a true beacon for the rest of the United States and the world. Is their purpose to change Texas to blue for us or them? Could it be that Texas is an obstacle on their way to power? We have seen them exercise power and it is totally to our detriment and against our Constitution. We cannot let policies that want to tear down our economy and belief system even be considered. If there is improvement to be made, Republicans have the ability to make any change necessary.

There is important work being done by the truly dedicated. Many of you want to be involved and feel as if you don't know how. It is easy to join in. You just check the events section of our website https://www.rockwallgop.org/ or visit our face book https://www.facebook.com/RockwallGOP and then volunteer for the events that in which you want to participate (start with our Conventions). You will be welcome with open arms and you can acquaint yourself with these dedicated patriots and engage in the battle. WE NEED YOU.

See message on page 3 from GOTV Chair.

There are many different ways to participate in the get out the vote efforts for this November and there are many different times as well. The best part: anyone can take part at virtually any time. Our goal this election is simply to get more Republicans to vote in Rockwall County in November than have ever voted before. We are going to have record numbers, we are going to control Rockwall County, and we are going to be even more Republican as a county when this election is complete. And yes, we have both a plan and path to achieve these goals.

This summer, we will have voter registration drives to register the new Republican residents who have moved here through a program that the Texas GOP has implemented; it is very easy to use and if you are not yet registered, please let me know and I can give you a form (I have about 10 left). This registration process is actually a phone-based system and it is very easy to use. This will help us increase the number of eligible Republicans.

As we enter September and October, we will shift to making sure registered Republicans get out to vote in the election. The Precinct Chairs' will assign neighborhood captains to help get out the vote in their own precincts and neighborhoods – this is an imperative step because each precinct is too large for one person to tackle. One of the many benefits of this is that our ground game will be very trusted and be known first as a neighbor, then as a Republican (which makes him/her more credible and trustworthy). We will have both wide and trusted reach

throughout our county.

In addition, we have three other ways to engage voters this year: (1) block walking, (2) phone banking, and (3) social media engagement. All of the PCs should register for the phone banking – this will help us reach the number we need for that to succeed. The neighborhood captains should serve as the block walking force as they will know the neighborhoods better than anyone. Finally, those who are not as well connected will help engage the population in social media, especially the younger generation. I will be working on the social media side to find someone to help manage and coordinate this effort with the databases we can access to ensure we maximize our effectiveness.

Here is our simplified plan:

1. Register voters through the state party system (you do not have to be deputized you are technically not the one registering them)

2. Assign (or work as) neighborhood captains

3. Commit to 1-3 GOTV efforts

4. Engage in GOTV efforts in September-November

If you are not a PC and still want to help, simply send me your contact information and we will get you plugged in. If you have any preference for what you want to do for GOTV, simply let me know and we can work with you to put you in a position that you enjoy and in which you will succeed. We must do this together and it will take all of our efforts to succeed, not the efforts of one or a few.

In summary, our strategy is simplified into a simple concept: own your neighborhood, own your precinct. We cannot preserve the whole if we fail to preserve the parts. It is very easy to get so focused on the whole that we neglect the neighborhood level yet this is where we will win and maximize our votes. By winning our neighborhoods, we will win our county and with historic turnout. Not any one individual can do it alone, but through our coordinated efforts we will have unprecedented success. Through our dedicated efforts we will win in 2020 and beyond.

Thank you all for what you do for our freedoms; I do not take your efforts lightly as I know and greatly appreciate the sacrifices each and every one of you are making. Now let's get out the vote and make history!

Freedom is never more than one generation away from extinction. We didn't pass it to our children in the bloodstream. It must be fought for, protected, and handed on for them to do the same.
